03	Trinity	Trinity River Mid-Basin Watershed Study Phase II	Trinity River Authority is requesting financial assistance to develop baseline hydraulic modeling for approximately 100 stream miles of the Main Stem of the Trinity River from Freestone Co. to the headwaters of Lake Livingston. Up to three Trinity tributaries spanning approximately 155 stream miles will be studied.	Anderson, Freestone, Leon, Madison, Houston, Grimes, Walker, Trinity		1203020105 Buffalo Creek, 1203020106 Upper Keechi Creek, 1203020201 Lower Keechi Creek, 1203020202 Boggy Creek, 1203020203 Big Creek-Trinity River, 1203020204 Caney Creek-Bedias Creek, 1203020205 South Bedias Creek-Bedias Creek, 1203020206 Wright Creek-Trinity River, 1203020207 White Rock Creek, 1203020208 Nelson Creek-Lake Livingston				4/22/2021		\$1,053,000	Yes	Flood Infrastructure Fund	2023	
03	Trinity	Flood Protection Planning for Watersheds – Chambers County and City of Mont Belvieu	Chambers County is requesting financial assistance to conduct a regional flood protection planning study. This proposed study includes use of the best and most current data with regard to cumulative changes in land cover and land use (development), updated NOAA Atlas 14 precipitation estimates, updated topographic data (LIDAR), limited topographic survey and stream cross-sectional data, and application of new technology to develop more accurate floodplain modeling and mapping. The study will include limited modeling of existing trunk storm sewers serving the more urbanized areas to identify structural and roadway flood risks. Collected data will be used to establish the existing flood risks along the studied streams and develop and distribute information vital to communities within the study area. Materials to be developed will include inundation maps for the studied streams showing the extent and depth of flooding for the various storm events to be evaluated. Number of structures, miles of roadway, and acres of land that are inundated will also be summarized.	Chambers						12/17/2020		\$4,656,000	Yes	Flood Infrastructure Fund		
03	Trinity	Countywide Drainage Study	Kaufman County is requesting financial assistance to create their first ever countywide drainage study. The project will collect all recent data, perform screening assessment to determine critical flood hazard areas that require detailed study, perform hydrologic and hydraulic (H&H) analysis, and develop common Capital Improvement Plan (CIP) project alternatives to address flooding concerns within the county boundary.	Kaufman		"Kings Creek-Cedar Creek Reservoir" (HUC# 1203010701), "Cedar Creek-Cedar Creek Reservoir" (HUC# 1203010702), "Duck Creek-East Fort Trinity River" (HUC# 1203010605), "Village Creek-Trinity River" (HUC# 1203010504), "Royse City-South Fork Sabine River" (HUC# 1201000103), "Lake Tawakoni" (HUC# 1201000104)				4/22/2021		\$240,000	Yes	Flood Infrastructure Fund		
03	Trinity	NCTCOG Integrated Transportation and Stormwater Management	FIF #76 in 2020 Flood Intended Use Plan	Tarrant								\$238,884,059	Yes	Flood Infrastructure Fund		
03	Trinity	Copper Canyon Poindexter Branch Flood Mitigation Plan	FIF #86 in 2020 Flood Intended Use Plan	Denton								\$307,529,918	Yes	Flood Infrastructure Fund		
03	Trinity	Plummers Creek Tributary Storm Sewer Improvements	The Limestone County proposed project includes acquisition and demolition of the two residences that were built over the stormwater main, completion of an H&H study to determine pipeline and detention basin sizing based on several rainfall events, replacement of approximately 925 feet of existing various size piping and culverts, and cleaning and resizing the retention basin.	Limestone						7/22/2021		\$1,700,000	Yes	Flood Infrastructure Fund		
03	Trinity	Dallas County Inland Port Flood Protection Planning Study	FIF #118 in 2020 Flood Intended Use Plan	Dallas						in progress		\$457,434,814.00	Yes	Flood Infrastructure Fund		
03	Trinity	Garland Flood Warning System	FIF #162 in 2020 Flood Intended Use Plan	Dallas								\$1,142,713,832.00	Yes	Flood Infrastructure Fund		
03	Trinity	Arlington Stream Gauge Improvements	FIF #168 in 2020 Flood Intended Use Plan	Tarrant								\$1,145,706,427.00	Yes	Flood Infrastructure Fund		
03	Trinity	Clay County Individual Safe Room Rebates		Clay						6/21/2021		\$676,700	Yes	Hazard Mitigation Grant Program		
03	Trinity	City of Melissa Warning Sirens		Collin						10/4/2017		\$196,619.80	Yes	Hazard Mitigation Grant Program
